

Task 1 - Install Print Server role

Steps

- Open Server Manager
- Click Manage
 - Add Roles and Features
- Select Role-based or feature-based installation
- Select your server
- Expand Print and Document Services
- Check Print Server
- Click Install
- After installation, open Tools → Print Management

Task 2: Create Users and Configure Permissions

Create Test Users

Open:

- Server Manager
- Tools
- Active Directory Users and Computers

Create:

- User1 (AllowedUser)
- User2 (DeniedUser)

Add Network Printer

- Open Print Management
- Right-click Printers
- Select Add Printer
- Add a network/shared printer

Configure Permissions

- Right-click printer
- Properties
- Open Security tab
- Add both users

Set permissions:

- Allow User - Allow Print
- Deny User - Deny Print

Task 3 - Test Printing

Login as AllowedUser

- Send a test print
- Job should appear in queue and print successfully

Login as DeniedUser

- Send a test print
- Access denied or job rejected

Task 4: Change Print Job Priority

- Send two print jobs
- Open:
 - Print Management
 - Printer
 - Open Queue
- Right-click first job
- Properties
- Change Priority

Task 5: Real-World Scenario

Create Groups

- EventManagers
- Volunteers
